a ball sensor in each of said lanes;
a controller, said controller in response to said initiate condition occurring (1) randomly displaying said at least one target in said display, (2) activating said a launch mechanism, (3) receiving a signal from the ball sensor at said lane said ball traveled through, (4) determining whether said at least one target is hit, and (5) incrementing said credit meter with a payoff for hitting the target.

Beginning on page 48 and carrying over to page 49, claim 29:

29. A method for playing a bonus casino game comprising:
starting play of the bonus casino game when a bonus condition occurs in an underlying casino game;
randomly displaying a plurality of numerical award values at exit lanes of the bonus casino game, one of said ~~series of numbers~~ plurality of numerical award values displayed at each of a corresponding number of said exit lanes;
randomly displaying at least one graphic in an exit lane not displaying one of said plurality of numerical award values;
launching a ball onto a playing field for said bonus casino game, the ball exiting one of the exit lanes;
when the ball exits the lane displaying the at least one graphic, then performing a predetermined mathematical operation based on the graphic;
issuing a game response indication based on the predetermined mathematical operation.

Beginning on page 49 and carrying over to page 50, claim 34:

34. A method for playing a bonus casino game interacting with its underlying casino game comprising:
randomly displaying a game outcome in the underlying casino game, the game outcome based on a plurality of different symbols;
randomly displaying at least one of the plurality of different symbols at at least one of the exit lanes of the bonus casino game when a bonus trigger occurs in the underlying casino game;
propelling a ball onto a playing field for the bonus casino game, the ball exiting one of the exit lanes;
determining whether the exit lane the ball traveled through has the at least one symbol displayed;
